

**Meeting of the Central Valley Flood Protection Board
September 19, 2008**

**Draft Staff Report
DWR Floodway Protection Section**

Item

Consider approval of Permit No. 18254 (Attachment A) to construct a walkway supported by concrete piers; a concrete retaining wall, and pave area for one handicapped parking space on the landside slope; excavate a trench parallel to and approximately 10 feet from the landside toe and fill with rebar and concrete to support existing structure on the left (east) bank levee of the Sacramento River.

Applicant

California Department of Parks and Recreation

Location

The project is located in Locke at 13916 Main Street. (Sacramento River, Sacramento County, see Attachment B).

Description

To construct an 8-foot-wide, 40-foot-long walkway supported by thirteen 16-inch-diameter concrete piers; a 37-foot-long concrete retaining wall, and pave area for one handicapped parking space on the landside slope; excavate a 24-foot-long, 12-inch-wide, 18-inch-deep trench parallel to and approximately 10 feet from the landside toe and fill with rebar and concrete to support existing structure on the left (east) bank levee of the Sacramento River.

Agency Comments and Endorsements:

- The U. S. Army Corps of Engineers endorsement has not been received but is anticipated to be received prior to the September 19, 2008 Board meeting.
- Reclamation District No. 369 has endorsed this application.

Proposed CEQA Determination of Exemption:

Board staff has prepared the following CEQA determination:

The California Department of Parks and Recreation (DPR), as lead agency under CEQA, approved the project (Locke Boarding House Rehabilitation, Locke Boarding House Property (SCH #2007038025) on March 2, 2007 and determined that the project was categorically exempt under a Class 15331 exemption for historical resources.

The Board, acting as a responsible agency under CEQA, has reviewed the DPR determination and has independently determined that the project is exempt from CEQA under a Class 15331 exemption for historical resources.

Section 8610.5 Compliance

1. Evidence that the Board admits into its record from any party, State or local public agency, or nongovernmental organization with expertise in flood or flood plain management:

The Board will make its decision based on the evidence in the permit application and attachments, this staff report, and any other evidence presented by any individual or group.

2. The best available science that related to the scientific issues presented by the executive officer, legal counsel, the Department or other parties that raise credible scientific issues.

The accepted industry standards for the work proposed under this permit as regulated by Title 23 have been applied to the review of this permit.

3. Effects of the decision on the entire State Plan of Flood Control:

This project has no effects on the State Plan of Flood Control.

4. Effects of reasonable projected future events, including, but not limited to, changes in hydrology, climate, and development within the applicable watershed:

None.

Staff Recommendation

Staff recommends that the Board determine the project to be exempt from CEQA and to approve the permit.

DRAFT

STATE OF CALIFORNIA
THE RESOURCES AGENCY
CENTRAL VALLEY FLOOD PROTECTION BOARD

PERMIT NO. 18254 BD

This Permit is issued to:

California Department of Parks and Recreation
7806 Folsom Auburn Road
Folsom, California 95630

To construct an 8-foot-wide, 40-foot-long walkway supported by thirteen 16-inch-diameter concrete piers; a 37-foot-long concrete retaining wall, and pave area for one handicapped parking space on the landside slope; excavate a 24-foot-long, 12-inch-wide, 18-inch-deep trench parallel to and approximately 10 feet from the landside toe and fill with rebar and concrete to support existing structure on the left (east) bank levee of the Sacramento River. The project is located in Locke at 13916 Main Street (Section 26, T5N, R4E, MDB&M, Reclamation District No. 369, Sacramento River, Sacramento County).

NOTE: Special Conditions have been incorporated herein which may place limitations on and/or require modification of your proposed project described above.

(SEAL)

Dated: _____

Executive Officer

GENERAL CONDITIONS:

ONE: This permit is issued under the provisions of Sections 8700 – 8723 of the Water Code.

TWO: Only work described in the subject application is authorized hereby.

THREE: This permit does not grant a right to use or construct works on land owned by the Sacramento and San Joaquin Drainage District or on any other land.

FOUR: The approved work shall be accomplished under the direction and supervision of the State Department of Water Resources, and the permittee shall conform to all requirements of the Department and the Central Valley Flood Protection Board.

FIVE: Unless the work herein contemplated shall have been commenced within one year after issuance of this permit, the Board reserves the right to change any conditions in this permit as may be consistent with current flood control standards and policies of the Central Valley Flood Protection Board.

SIX: This permit shall remain in effect until revoked. In the event any conditions in this permit are not complied with, it may be revoked on 15 day's notice.

SEVEN: It is understood and agreed to by the permittee that the start of any work under this permit shall constitute an acceptance of the conditions in this permit and an agreement to perform work in accordance therewith.

EIGHT: This permit does not establish any precedent with respect to any other application received by the Central Valley Flood Protection Board.

NINE: The permittee shall, when required by law, secure the written order or consent from all other public agencies having jurisdiction.

TEN: The permittee is responsible for all personal liability and property damage which may arise out of failure on the permittee's part to perform the obligations under this permit. If any claim of liability is made against the State of California, or any departments thereof, the United States of America, a local district or other maintaining agencies and the officers, agents or employees thereof, the permittee shall defend and shall hold each of them harmless from each claim.

ELEVEN: The permittee shall exercise reasonable care to operate and maintain any work authorized herein to preclude injury to or damage to any works necessary to any plan of flood control adopted by the Board or the Legislature, or interfere with the successful execution, functioning or operation of any plan of flood control adopted by the Board or the Legislature.

TWELVE: Should any of the work not conform to the conditions of this permit, the permittee, upon order of the Central Valley Flood Protection Board, shall in the manner prescribed by the Board be responsible for the cost and expense to remove, alter, relocate, or reconstruct all or any part of the work herein approved.

SPECIAL CONDITIONS FOR PERMIT NO. 18254 BD

THIRTEEN: All work approved by this permit shall be in accordance with the submitted drawings and specifications except as modified by special permit conditions herein. No further work, other than that approved by this permit, shall be done in the area without prior approval of the Central Valley Flood Protection Board.

FOURTEEN: The Central Valley Flood Protection Board, the Department of Water Resources and/or any department(s) thereof and Reclamation District No. 369 shall not be held liable for damage(s) to the herein permitted project resulting from release(s) of water from reservoirs, flood fight, operation, maintenance, inspection, or emergency repair.

FIFTEEN: The permittee is responsible for all liability associated with construction, operation, and maintenance of the herein permitted project and shall defend and hold harmless the Central Valley Flood Protection Board, the Department of Water Resources and/or any department(s) thereof and Reclamation District No. 369 from any liability or claim(s) of liability associated therewith.

SIXTEEN: The permittee shall be responsible for repair of any damage(s) to the flood control project works due to construction, operation and/or maintenance of the herein permitted project.

SEVENTEEN: Maintenance of the proposed pedestrian bridge and the levee slope directly beneath and/or adjacent to said bridge shall be the responsibility of the permittee.

EIGHTEEN: The permittee shall contact the Department of Water Resources by telephone, (916)

574-1213, and submit the enclosed postcard to schedule a preconstruction conference. Failure to do so at least 10 working days prior to start of work may result in delay of the project.

NINETEEN: No construction work of any kind shall be done during the flood season from November 1st to April 15th without prior written approval of the Central Valley Flood Protection Board.

TWENTY: All cleared trees and brush shall be completely burned or removed from the flood control project works, and downed trees or brush shall not remain in/on the project works during the flood season from November 1st to April 15th.

TWENTY-ONE: Stockpiled material and/or equipment shall not remain within/upon the flood control project works during the flood season from November 1st to April 15th.

TWENTY-TWO: The pedestrian bridge piers shall be lowered (jacked) into predrilled holes, or shall be cast-in-place against firm, undisturbed soil within said predrilled holes.

TWENTY-THREE: The pedestrian bridge handrails shall not extend onto the levee crown.

TWENTY-FOUR: Excavations in the levee section for the the bridge abutment and retaining wall shall be cleaned of all loose soil, and backfilled with concrete cast against firm undisturbed earth.

TWENTY-FIVE: Density tests by a certified materials laboratory will be required to verify compaction of fill materials.

TWENTY-SIX: Fill material shall be placed only within the area indicated on the approved plans.

TWENTY-SEVEN: Fill material shall be placed in 4- to 6-inch layers and compacted to at least the density of the adjacent, firm, undisturbed material.

TWENTY-EIGHT: All debris generated by this project shall be disposed of outside the flood control project works.

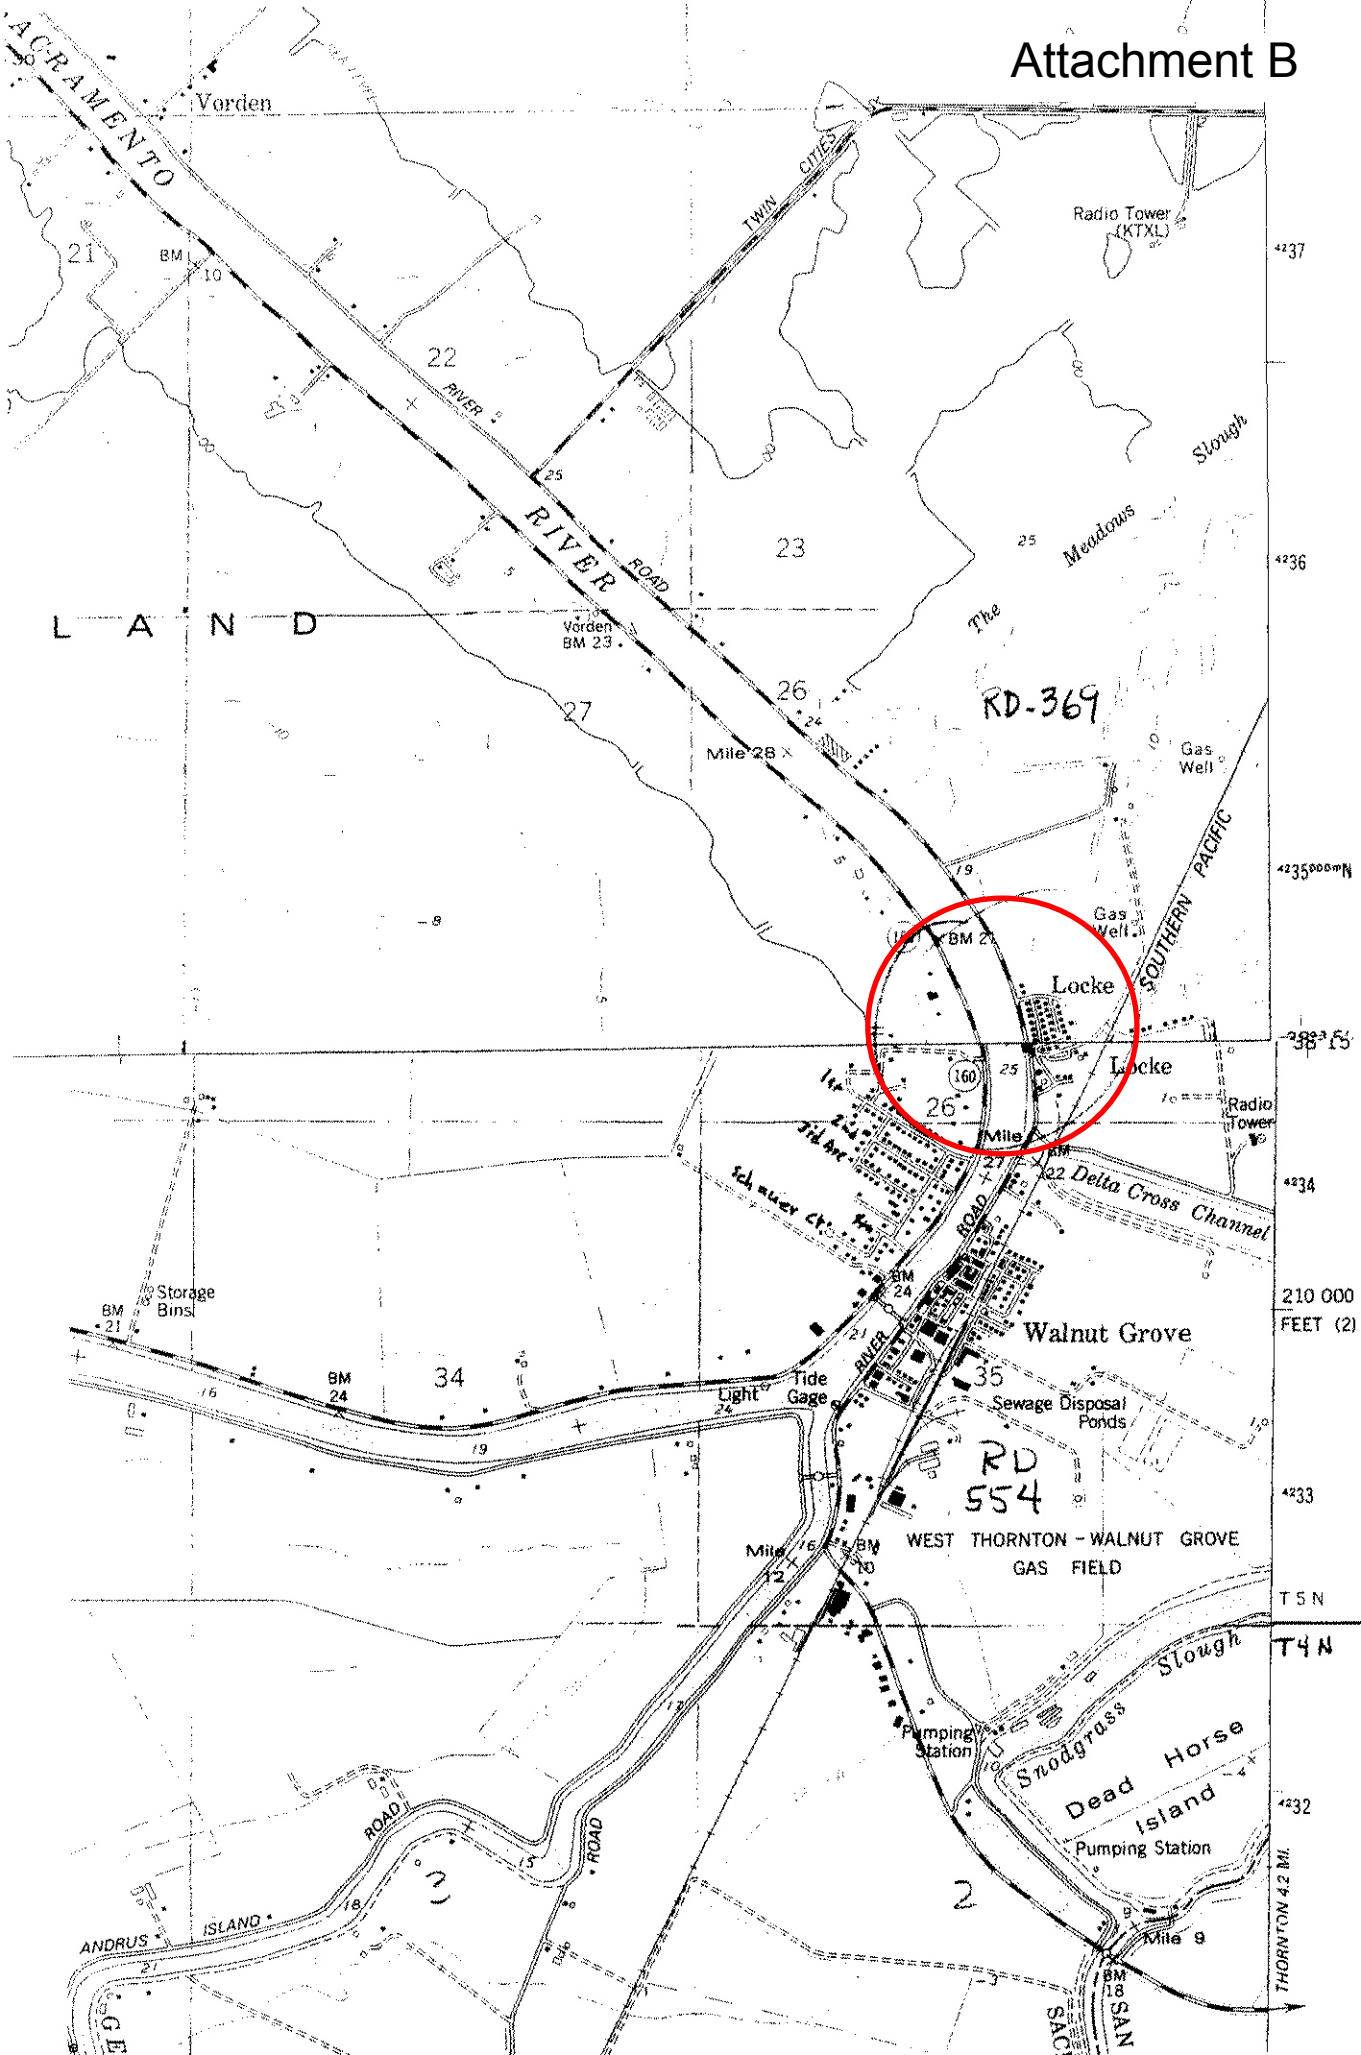

TWENTY-NINE: The work area shall be restored to the condition that existed prior to start of work.

THIRTY: The permittee may be required, at permittee's cost and expense, to remove or alter all or any part of the herein permitted project if removal or alteration is necessary as part of or in conjunction with any present or future flood control plan or project or if damaged by any cause. If the permittee does not comply, the Central Valley Flood Protection Board may remove or modify the herein permitted project at the permittee's expense.

THIRTY-ONE: The permitted encroachment(s) shall not interfere with operation and maintenance of the flood control project. If the permitted encroachment(s) are determined by any agency responsible for operation or maintenance of the flood control project to interfere, the permittee shall be required, at permittee's cost and expense, to modify or remove the permitted encroachment(s) under direction of the Central Valley Flood Protection Board or Department of Water Resources. If the permittee does not comply, the Central Valley Flood Protection Board may modify or remove the encroachment(s) at the permittee's expense.

THIRTY-TWO: If the project, or any portion thereof, is to be abandoned in the future, the permittee or successor shall abandon the project under direction of the Central Valley Flood Protection Board and Department of Water Resources, at the permittee's or successor's cost and expense.

THIRTY-THREE: The permittee shall comply with all conditions set forth in the letter from the Department of the Army dated September XX, 2008, which is attached to this permit as Exhibit A and is incorporated by reference.
